ANT8	

The schematic diagram illustrates the proposed antenna system. It features two main antenna structures, ANT1_NFE_1 and ANT2_NFE_1, which are coupled through a series of matching networks (A0105, A0107, A0108) and a central coupling network (C001). The input ports are labeled J0135 and J0136, while the output ports are GND1 and GND2. The diagram also shows various passive components such as resistors, capacitors, and inductors, with their respective values specified.
