(AU : W-B1,2,5,8 / LTE-B1,3,5,7,8,28)
(LA : W-B1,2,4,5,8 / LTE-B1,2,3,4,5,7,8,12,17)

The diagram illustrates the evolution of a building's structural system through four stages from left to right:

- Single Column:** A single vertical column supporting a series of horizontal beams.
- Two Columns:** Two vertical columns supporting a continuous beam system.
- Three Columns:** Three vertical columns supporting a continuous beam system.
- Four Columns:** Four vertical columns supporting a continuous beam system.

Each stage shows the addition of columns and the corresponding changes in the beam and slab structure, leading to a more complex and rigid frame system.
