## BUCK POWER

A diagram of a ladder with two rungs. The rungs are horizontal lines. The top rung is labeled  $A_1$  and the bottom rung is labeled  $A_2$ .

VLDO34\_PMIC\_2P05

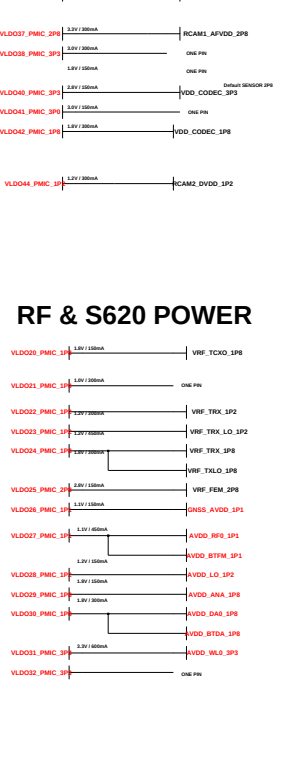

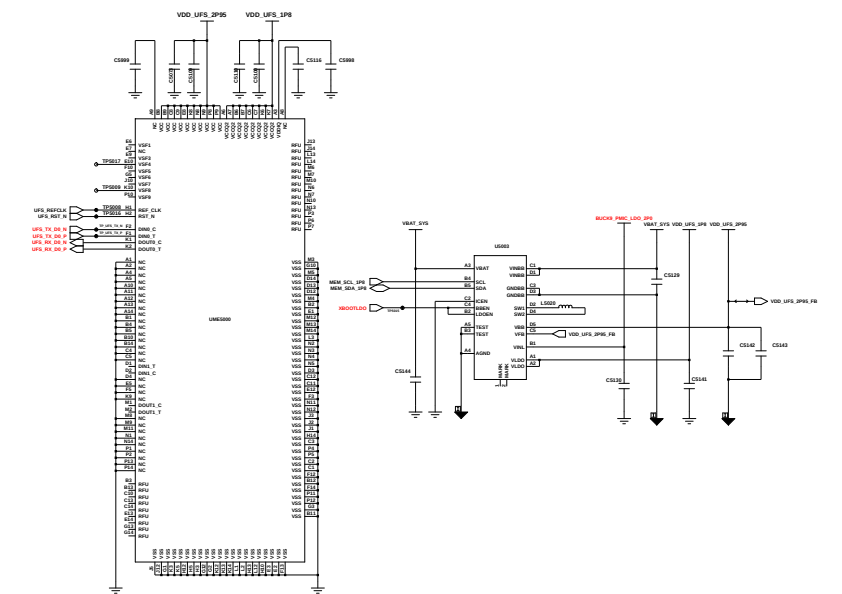

Figure 1: Schematic representation of the genomic organization of the VLDL2 gene. The diagram shows 13 exons (VLDL02.1 to VLDL02.13) and 12 introns (VLDL02.I1 to VLDL02.I12) across a 1.8 kb region. Exons are represented by black boxes, and introns by lines. The scale bar at the top indicates 1.8 kb. The gene structure is shown in a linear fashion, with exons and introns labeled accordingly.
